MESSAGE FROM BOARD CHAIR

When I joined the SCCAA in 2006, I never thought that one day I would serve as chair of the fifteen-member board, or play a key role in decision-making and policy-setting for such a valuable community resource organization.

In 2009, SCCAA board and staff worked diligently to govern and meet the needs of the low-income Stark County children, youth, adults and families. They did this through the establishment of new community relationships and initiatives, and the provision of our core program services of Head Start, CEEO-Workforce Development, HEAP, Fatherhood, Youth Services and the Home Weatherization Assistance Program.

As people lost jobs, income, savings and hope, as the economic recession worsened, the SCCAA continued to work. Their belief is that helping people achieve self-sufficiency through education, job creation, supportive services and business development is the way to change lives and leave poverty behind.

I believe with the right guidance, support and information, many individuals and families who are bound by dire and diverse circumstances can achieve and sustain financial independence.

In 2010, SCCAA will continue to seek innovative opportunities, expand its resources, and be proactive, responsible and accountable for the strategic development of initiatives. We will continue to form community relationships and use the valuable public and private financial resources to assist the less fortunate of our community.

Kim Perez
SCCAA Board Chair

MESSAGE FROM CEO

This 2009 Stark County Community Action Agency (SCCAA) Annual Report is not about stocks, bonds and interest rates. It is about the children, individuals and families to whom the SCCAA provided service during the course of the past year. The children from eligible households who needed, and were afforded, a chance at a head start in developmental areas for school readiness. These children, like all of us, share the unenviable task and challenge of representing our community's future.

This report is about the teenagers from our neighborhoods who found refuge and inspiration in career-oriented summer jobs. They were provided with mentoring and tutoring opportunities from staff that genuinely cared about their futures.

It is about the adults who never expected to obtain a General Equivalency Diploma (GED), but DID! It is also about the adults who developed computer skills and gained employability skills that enabled them to obtain meaningful self-sufficient employment.

This report is about the persons who worked two and three jobs, yet still needed assistance to make ends meet. This report also represents the families faced with disconnection of their utility services to whom SCCAA provided assistance to help keep them warm and safe.

To summarize, it is SCCAA's mission to serve the less fortunate Stark County residents who struggle to rebuild their hopes, dreams and dignity toward a better life for themselves and their families. To fulfill this mission, the staff of the Stark County Community Action Agency work daily in support of the Stark County community. Their tireless efforts deserve gratitude and appreciation.

Rodney Reasonover
Chief Executive Officer

SCCAA BOARD OFFICERS and DIRECTORS

The SCCAA Governing Board of Directors is a fifteen-member tripartite board comprised of public, private and constituent representatives meeting all federal and state governing requirements. The Governing Board continues to assure organizational assessment and strategic response to the causes and conditions of poverty. Furthermore, the Governing Board oversees the achievement of anticipated results and ensures that SCCAA remains administratively and fiscally sound.

AGENCY OVERVIEW

The Stark County Community Action Agency, a 501c (3) non profit organization incorporated in 1981, is the federal government- and Ohio-designated anti-poverty agency for Stark County, Ohio.

The SCCAA is a significant program provider of services, works with a commitment and creativity to promote self-sufficiency among low-income persons. The SCCAA carries out its mission through the provision of innovative, practical and timely programs that primarily emphasize education and job training. The SCCAA provides opportunities for more than 20,000 individuals and families each year to improve their lives and contribute to the Stark County communities.

SCCAA programs and services include Head Start, Early Head Start, Home Energy Assistance, CEEO-Workforce Development, Computer Training, Career Development, Nurse Aide and Home Health Aide Training, Summer Youth Employment, Mentoring, Fatherhood, Youth Re-entry, Home Weatherization Assistance Program, Community Services, Fuel Assistance and Consumer Education.

In 2009, subsequent to the signing of the American Recovery and Reinvestment Act (ARRA) legislation, SCCAA was presented with an unprecedented opportunity to assist and support in the national effort to jumpstart the American, Ohio and Stark County economies. As part of this effort, SCCAA received ARRA funding to support its Home Weatherization Assistance Program, Head Start, and Community Service Block Grant programs.

Through the use of these ARRA funds, between 2009-2010 SCCAA will do the following:

1. Hire twenty-two (22) new staff members
2. Provide more than 20,000 low-income residents with services that can help them improve their economic situations
3. Weatherize an additional 573 homes to improve energy efficiency
4. Expand early childhood programming to include Early Head Start services to 94 pregnant women, infants and toddlers
5. Provide Head Start staff with a salary supplement
6. Expand workforce development
7. Establish a micro business development program, and
8. Employ sixty (60) teens in summer jobs and career development activities.

During 2009, SCCAA established and implemented three key organizational objectives to govern performance. These objectives were to be *Proactive*, *Responsive*, and *Accountable*.

PROACTIVE

In September 2009, the SCCAA in collaboration with Mercy Medical Center and the Canton City Health Department, responded to the lack of primary care physician services in Northeast Canton. A joint healthcare initiative was implemented with the launch of a mobile medical clinic offering free medical services to residents in this area. The program operates two days per week at the SCCAA William Hunter Family Development Center.

RESPONSIVE

While 2009 began as a normal year for the SCCAA, it evolved into a year of enormous opportunity and responsibility. The year became a year in which SCCAA found it necessary to accelerate its responsiveness to community needs as a result of the deteriorating economic climate. The eligibility for SCCAA services increased from 125% to 200%, making nearly 95,000 households eligible for our services. This increase in eligible populations was a direct response to the economic downturn.

ACCOUNTABLE

The SCCAA continues its record of responsibility and dependability as a steward of public and private funds by meeting or exceeding all standards and measures of accountability. Demonstration of SCCAA accountability continues to be evident through the audit process. Additionally, a measure of SCCAA's accountability was evident in 2009 through the growth of our financial portfolio to \$19.6 million.

**Stark County Community Action Agency -Head Start Annual Report
Program Year 2008 - 2009
Grant Period May 1, 2008 – April 30, 2009**

The SCCAA-Head Start Program promotes school readiness by enhancing the social and cognitive development of children through the provision of educational, health, nutritional, social and other services to enrolled children and families. The SCCAA-Head Start program served more than 855 low-income three- and four-year-old children preparing them for kindergarten. SCCAA directly operated Head Start centers in Canton, Massillon and Alliance, serving more than 700 children. Additionally, more than 100 children were served through partnerships with Canton City Schools, Little Learners Child Development Centers, and A Place to Learn and Grow Child Care Center.

The SCCAA-Head Start program implemented the nationally-recognized Creative Curriculum, in its centers and its partner’s centers. Canton City Schools utilized two different curricula: 1) The *Reading Street* curriculum, which is a research-based series specifically addressing a print-rich environment; and 2) *Everyday Mathematics*, another researched-based curriculum, that integrated well with daily routines and activities.

The total amount of public funds received by the Head Start program was \$5,776,483.00

The amount from each source was:

| | |
|--|----------------|
| Health & Human Services, Head Start- Program Operations | \$5,698,662.73 |
| Health & Human Services, Head Start- Training & Technical Assistance | \$77,820.27 |

Expenditures of these funds (FROM HHS HEAD START 269)

| | |
|---------------------------|-----------------------|
| Personnel | \$1,889,285.93 |
| Fringe Benefits | \$1,296,414.78 |
| Travel | \$ 8,253.26 |
| Equipment | \$ 19,267.28 |
| Supplies | \$ 105,599.51 |
| Contractual | \$1,135,084.99 |
| Other | \$ 518,802.02 |
| PA20 | \$ 77,820.27 |
| Indirect | \$ <u>725,954.96</u> |
| Total Expenditures | \$5,776,483.00 |
| In-Kind | \$ 1,864,717.24 |

The total amount of private funds received by the Head Start program was \$ 1,864,717.

The total number of children served was 1,091, representing 981 total families served. The average monthly enrollment as a percentage of funded enrollment was 100%. Based on the 2009 Community Assessment, the estimated number of Head Start-eligible children in Stark County was 2,486. Forty-four percent (44%) of eligible children were served.

Every third year an on-site audit of the Head Start program is conducted by a federal review team to determine compliance with Head Start performance standards. Out of the more than six hundred standards, the federal review team found six performance standards not in compliance. Eighty-five (85%) percent of enrolled children received medical exams and eighty-five (85%) percent of enrolled children received dental exams.

Child Developmental Gains

Head Start compared the assessment data of each child's developmental progress between fall 2008 and spring 2009. Improvements were made in the following developmental areas:

| | | | |
|------------------------|-----|------------------------------|-----|
| Approaches to Learning | 21% | Literacy | 22% |
| Creative Arts | 25% | Math | 20% |
| Fine Motor | 34% | Physical Health | 26% |
| Gross Motor | 49% | Science | 20% |
| Language | 29% | Social/Emotional Development | 29% |

Parent Involvement Activities

Head Start parents donated over 55, 000 hours of volunteer time during the 2008-2009 period. Those volunteer hours were accrued in the following areas: Policy Council, Parent Committee meetings, classrooms, home learning assignments, clerical, bus monitors, assistance with recruitment, health and nutrition activities, janitorial services and training events.

Parental activities included Soccer Clinics, Spaghetti Dinners, Bowling night, marching in area parades to promote recruitment, Donuts for Dads, Muffins for Moms, skating parties, carnivals, picnics, fashion shows, Build and Grow Nights with Lowe's Home Improvement, and Fatherhood activities. Fatherhood trainings included the following: How to become a more effective parent, child support and felony issues, employment challenges, and education opportunities.

Parents participated in training on the following topics: healthy eating, housing, positive parenting, volunteer training, officer's training, kindergarten transition training, enrollment process, stress management, budgeting, dealing with behavioral issues, how to deal with the death of a child, home weatherization, employment opportunities, and voter education.

**Stark County Community Action Agency
Home Weatherization and Assistance Program (HWAP)
Program Year 2008 - 2009
Grant Period April 1, 2009 – March 31, 2010**

The Home Weatherization Assistance Program (HWAP) is a federally-funded, low-income residential energy efficiency program that reduces the energy use of qualified households throughout Stark County. HWAP services include attic, wall and basement insulation; blower door guided air leakage reduction; heating system repairs; electric baseload measures to address lighting and appliance efficiency; and health and safety inspections and testing. Services are based on the structure and energy use of the home.

Major Accomplishments/Achievements

- 289 households weatherized
- \$1,867,185 dollars invested in the Stark County community
- 674 individuals benefited from HWAP services
- Over 27% average household gas reduction

Client Testimonies

"I would like to thank you for the furnace and insulation that was put in for me. I appreciate it more than I can say. Your agency is unbelievable. I am so fortunate that you have helped me so much. Thank you from the bottom of my heart." Glenda

"Thank you to everyone that came out to my house and weatherized it. This is such a good program." Amy & Family

"My life has changed and I needed to ask for help. Thank you for answering that need, not only with generosity but also with dignity and respect." Jim & Sue

"I want to thank you all for the services rendered. All the men were hardworking, doing all they could to help me. They were friendly, kind & a joy to know. I hope to spread the word about this agency to help others know about you." Dorothy

**Stark County Community Action Agency
Home Energy Assistance Program (HEAP)
Program Year 2009
Grant Period September 1, 2008 – August 31, 2009**

The Home Energy Assistance Program (HEAP) assists thousands of families with short-term help for the high costs of heating and cooling. Funding for HEAP is provided by the Ohio Department of Development, Office of Community Service.

Benefit Structure

Regular Component - This component of HEAP is designed to help eligible households with winter heating bills. It consists of a one-time payment on the household's primary source of heat.

4,560 Stark County households received financial assistance through the Regular HEAP Program

Emergency Component/E-HEAP - The emergency component runs from November 1 through March 31 of each year. This component assists households whose primary and/or necessary secondary energy source have been disconnected or are threatened to be disconnected. This component may also apply to households who have less than a 10-day supply of bulk fuel. In some instances, homeowners can receive furnace repair.

4,525 Stark County households received financial assistance totaling \$924,617 under the Emergency Winter Crisis Program

Percentage of Income Payment Plan/PIPP - This special payment plan requires eligible customers to pay a portion of their household income each month to maintain utility service. PIPP protects customers from disconnection, as long as they follow the program rules regarding monthly payments.

8,221 Stark County households received PIPP enrollment

Summer Crisis Program - Provides electric-only utility assistance to households with an elderly member (60 yrs. or older), or that can provide physician documentation that cooling assistance is needed for a member's health. The Summer Crisis start date and benefit are determined annually by the Ohio Department of Development, Office of Community Services, and are published in June.

1,066 Stark County households received financial assistance totaling \$150,836 through the Summer Crisis Cooling Program

**Stark County Community Action Agency
Center for Education and Employment Opportunities (CEEEO)
Program Year 2009
Grant Period January 1, 2009 – December 31, 2009**

Workforce Development

The aim of the Center for Education and Employment Opportunities (CEEEO) is to promote economic self-sufficiency among low-income families by providing educational programs and employment assistance to qualified individuals.

In 2009, CEEEO served 1,225 individuals representing 613 households in Stark County. Additionally, with the funding by the American Recovery and Reinvestment Act (ARRA), two new programs were launched to meet the needs of the employment environment. The two new educational offerings were the State-Tested Nurse Aid (STNA) certification program, partnering with Absolute Health Care Training Center, and the Microsoft Office Certification program.

Major Accomplishments/Achievements

- 36 individuals earned their GED
- 179 individuals completed Workforce Development Skills Training in the following areas: Adult Basic Education, Beginning, Intermediate, Advanced Computer Skills Training; and/or STNA coursework
- Employment placement was achieved for 51 individuals

Future Goals

The CEEEO seeks to further diversify the services offered to our clients. As we continue to overcome the challenges of our present economy and employment environment, we are researching programs that would provide a service that meets the needs of the community, while generating revenue for the Agency.

Client Testimonies

“The staff is very dedicated and it is a one-of-a-kind agency.” John M.

“Just keep doing what you are doing. You are the most caring group of staff I have ever seen. Thanks for everything.” Kim G.

**Stark County Community Action Agency
Fatherhood Program
Program Year 2009
Grant Period January 1, 2009 – December 31, 2009**

Fatherhood...Forming Positive Parent-Child Relationships

SCCAA's Fatherhood Program was established and designed to meet the challenges and needs of the 21st century dad. SCCAA has established and maintained a working relationship with The Stark County Family Court and The Stark County Child Support Enforcement Agency (CSEA). The fatherhood clients, referred to the agency by CSEA and enrolled into the program, attended The Informed Parent class that utilized the 24/7 Dad curriculum. The six-week class focused on characteristics that sharpened parenting skills. Some of the topics discussed included:

Fathering and culture

Handling and expressing emotions

Discipline, rewards, and punishments

Balancing work and family

Expectations and children's development

Getting involved with your children

Fathering and family roles

Physical and mental health

Guest speakers also served as an additional resource to navigate through child support, legal, and/or financial issues.

Major Accomplishments/Achievements

- 145 fathers served
- 57 fathers assisted to understand and navigate through the child support system
- 17 fathers employed through placement assistance

Fatherhood Advocacy in Action...

A fatherhood client was ordered to pay child support in two counties. He had average skills and was unable to find employment.

Caught between the two counties with child support mandates, this client was serving time in one county jail for non-payment of child support, and was unable to appear in court for the other county. He was found in contempt and ordered to serve time.

This became a revolving door. He had no chance to look for employment. SCCAA intervened for him with the courts. After realizing the situation, the courts allowed him to focus on his responsibilities and eventually, he gained employment and began to make child support payments.

**Stark County Community Action Agency
Youth Re-Entry
Program Year 2009
Grant Period January 1, 2009 – December 31, 2009**

Youth Re-Entry...Assisting At-Risk Youth

SCCAA is concerned about the youth in our communities. Through our partnership with the Ohio Department of Youth Services Re-Entry Program, we support male and female incarcerated youth between the ages of 15 and 21. This initiative strives to work with young men and women re-entering society, giving them the educational and social tools necessary to help make wise lifestyle choices.

The Agency also recruits, employs and mentors Stark County youth for the purpose of academic and occupational advancement. High school students enrolled in this program are assured of academic excellence through mentorship and tutoring, and also gain employment experience through internships throughout the community. Upon graduation and completion of the program, we assisted students with enrollment in higher education.

Major Accomplishments/Achievements

- 83% youth received their GED or High School Diploma
- 42% youth enrolled in post-secondary schools
- 42% youth are remaining out of trouble and out of the legal system

Youth Advocacy in Action...

One of the youth had not seen his dad in about 16 years. He was asked if he wanted to see him, and his reply was that he hasn't seen him in all this time and it doesn't make a difference if he sees him or not.

After informing this youth that his father was looking for him, he changed his mind and said that he wanted to meet him. Arrangements were made and they met. The youth's face was full of smiles. He and his dad embraced for quite a while. Afterward, they began to talk about the things that were missed. Since meeting his dad, the youth's outlook on life has changed.
